More Casual Enjoyment of Arts and Culture

The Ueno district, which has a high concentration of facilities for arts and culture, and other areas with distinctive cultural features have leveraged their respective strengths to enhance their attractiveness. Metropolitan cultural facilities offer quality services. An arts and culture network has been established among facilities in the National Capital Region and collaboration has been strengthened with cities overseas, such as Beijing and Seoul.

Key Terms to Understand Strategy 3

Volunteers for the Tokyo 2020 Games
There will be two types of volunteers for the Tokyo 2020 Games. The “Games volunteers”\(^1\) will support Games operations, providing venue information and guidance and helping in competition management. The “city volunteers”\(^2\) will provide visitors with services at airports, major stations, sightseeing spots, etc.

A community of support
By enhancing social contribution activities through the expansion of citizen activities in all situations from community events to volunteering at sports events, a society will be built where citizens actively help and support each other.

Securing volunteers
A council made up of members from the central government, the Tokyo Metropolitan Government, the Tokyo 2020 Organising Committee, municipalities, private-sector organizations, companies, schools and others will be established to coordinate efforts in recruiting and training volunteers.

Promoting the Tokyo brand
The “Tokyo brand,” an attractive image of Tokyo as a tourist destination, will be established, and the brand’s message will be disseminated around the world through such steps as creating a logo and catch phrase, sharing the concept with Tokyo residents and private-sector companies, and airing TV commercials abroad.

Cultural vision for Tokyo

 Ahead of formulating the cultural program for the Tokyo 2020 Games, the completed cultural vision will be conveyed to Japan and the world. This 10-year vision will lead to the development of sophisticated cultural policies.

Supporting all kinds of arts and culture activities

Support will be extended to all kinds of people, irrespective of nationality, age, or disability, to engage in creative arts and culture activities in Tokyo. This will include an exhibition for “Art Brut,” a type of art outside the fine art tradition.
